Are we comin on to strong  
Lyrics to bold to sing along  
We've been around way to long to back down  
Put us down for what were fighting for  
Brush the dirt off well come back for more  
Never waiving what we say well hold our ground

We found somethin worth livin for  
Hes dropped the bomb hes settled the score  
Its just a matter of time till the worlds knee will bow  
Fight to the death and well rise above  
Saw through the lies and the systems corrupt  
Take that white flag and then well burn it to the ground

Raise the white flag and lay our arms down? - NO  
SURRENDER  
Comin out with a bang a guns a blazin - IN YOUR FACE

Back to back dodgin bullets again  
The duels on theres no countin to 10  
Whose gunna be the first to draw  
Last man standing and the first to fall
