Yeah, this report , five beats on a track
,you know how I go down

I can handle it, anything you throw at me I do my thang
Cause you know that I'ma throw back
Especially with the flow, and let this people down,
and let this people know

I can handle it
Anything you throw at me I do my thang
Cause you know that I'ma throw back
I can handle it
Especially with the flow, and if you people doubt, then
you people are flow

I can handle it, flip it up take a beat ,
Don't worry about how I did it, just know ,
And you boys official dog, not just some counterfeit
You all rappers say you did it, I really ,
, a fist full of cash, and it looks like I'ma shine
in the dark like a candle lit
, I'm like ,

...
You all keep reaching for the top but you can't get in
Here's a tip for you dulls, so you might get in
Listen to my songs, take notes, ,
I can handle it like pistol Pete narrow vision
Like the waiter get over the game, I can handle it
I might have to , , I might have to random it
If you think you making hits dog, but I'm making ,

Anything you throw at me I do my thang
Cause you know that I'ma throw back
Especially with the flow, and let this people down,
and let this people know
Anything you throw at me I do my thang
Cause you know that I'ma throw back
I can handle it
Especially with the flow, and if you people doubt, then
you people are flow

Now hear me out, I'm there general without the doubt

Yeah, I'm the , cup, the one you can't live without
The game is in the ,
You got a heart beat with no flow, that don't even know
I can sell a lot of show when I ain't even out
I can sell a million records when they ain't even out
My delivery on a fire that I'm putting out
Your girlfriend bought my cd, you figure it out
I'm thigging me out, the best that the game ever had
I don't fuck my math countin cash , different class
And I'ma take that out we're on a different rash
And with the mic I can handle it like Steve Nash
, I can handle it like ,
I'm here now, it's the rap, kinda like the ,
, in the second , even the , they can see that I'm the
man

Anything you throw at me I do my thang
Cause you know that I'ma throw back
Especially with the flow, and let this people down,
and let this people know
Anything you throw at me I do my thang
Cause you know that I'ma throw back
I can handle it
Especially with the flow, and if you people doubt, then
you people are flow

I feel sorry for the guys that can't handle it
You all can be delivered out to the Traficant's
This game is mine, I'ma run it like this
With the , flow that get your nose running like this
And I'm tryin to get the cheese and butter like crisp
And I can talk it how walking cause the shoes bit
And I'ma keep the music coming to you like a blitz
And I'ma give it to you , after hit, after hit, after hit

Anything you throw at me I do my thang
Cause you know that I'ma throw back
I can handle it
Especially with the flow, and if you people doubt,
then you people are flow X 2
