(M. Doughty)
14,000 times a second
The speaker moons
Magnitism pushes
the impulse through
But I can't keep that speed
I can't generate that frequency
What the sound pressure level means
Wants to randomize electrons--I can't read
And you're still not dancing
She came pushing sixteen
She came pushing sixteen horses
I saw her and thought of her and thought of her
And I thought I heard a doorbell tone
And I thought I saw thought I saw and thought I saw
You watching from the lawn
She went over bridges like the river was a dream
dream
Over bridges like the river was a dream dream
She came pushing sixteen
She came pushing sixteen horses
Two rings two rings two rings clamp down
Quit it
Two rings two rings two rings clamp down
Quit it
Two rings two rings two rings clamp down
Quit it
Two rings two rings two rings clamp down
Quit it
She came pushing sixteen
She came pushing sixteen
She came pushing sixteen
She came pushing sixteen horses
