Zoom zip and uh wake up, uh zoom zip

My eye like a noisegate the number 8 frustrate and I  
roll to the floor fruit  
to the fruit to the core of a spheroid embedded in my  
skull the round the  
zero the symbol of null and void and well I toyed with  
the concept of  
vitamin B-12 the synapse the synapse it feeds itself on  
a nutrient  
contained in sunlight the blink the lid the fight to snap  
open

Moving up to the double M 2000 I eat up a decade like a  
flan your turn of  
the century turn it up turn it up clock seconds to the  
hour go and cash the  
millenium Um Um and it hums like a migraine to the  
brain in the time yet  
remaining but uh ah melancholy nonsense and I crack  
nouns brotherfuck  
the verb tense

Recombination, then Viacom, Safeway
