"Heartbeat"

Visit "[Heartbeat](#)" on MotoLyrics.com

I can feel the need, I can feel the heat
my heart in sync with you on every beat
forget about the time, day turns into night
waiting for the chance to get it right
take me where - I don't have any care..
waiting for a sign - time just passes by
you were meant for me - I don't know why
if you say the word - there's nothing I won't do
touch me once again - the hole night through
you can stay 'till the break of day
if it's good enough for you
it's good enough for me
take me to the top - then set me free
I just wanna feel your heartbeat
I just wanna feel your heartbeat
love is like a wave
takes me for a ride
higher as i feel the risig tide
I just wanna feel your heartbeat
I just wanna feel your heartbeat
when I think about the times I've spent with you

how the days went by - they seemed so few
if we try again - I'll forgive the past
you will be my strength - we'll make it last
I feel free - you're lyin' next to me
prayin' in the night - beggin' through the day
hopin' that you say your're here to stay
I don't wanna loose you, I don't wanna fight
I just wanna have you by my side
trust in me - and baby you're gonna see...
if it's good enough for you
it's good enough for me
take me to the top - then set me free
I just wanna feel your heartbeat
I just wanna feel your heartbeat
