If you want my love help me heal the pain in my eyes

Ooh it's kinda crazy
I've been thinking maybe gotta get you out of my mind
First you say you want me now your memories haunt
me
Why don't you just give me a sign

I thought I had someone that
I could fall in love with
Someone who would treat me right
So I tried to be so kind
I thought for sure I'd make you mine but something's
Weighing up on my mind
Why don't you take my hand, and help me understand
?Cause I can't figure out
What you're thinking about, why don't you let me know
Don't want to be alone going out of my mind
Waiting for the day you'll say you'll be mine

If you want my love (why don't you show me then)
Help me heal the pain in my eyes (I know you want me
now)
If you want my love, why don't you tell me
?Cause I've had enough of plastic people wasting my
time

Chorus

Thought I had someone that I could really care for
Someone who won't waste my time (don't lead me on)
But now I find that you lie
You're always out with other guys
Is that your way of playing with my mind (yeah)

Why don't you take my hand, help me understand
?Cause I can't figure out
What you're thinking about
Why don't you let me know
Don't want to be alone going out of my mind
Waiting for the day you'll say you'll be mine

If you want my love (why don't you show me then)
Help me heal the pain in my eyes (I know you want it
girl)
If you want my love why don't you tell me
?Cause I've had enough of plastic people wasting my
time

Chorus

Showed you all that I am
And treated you well
Gave you half of my heart but you tore it to hell
Give me someone who won't lie and won't cheat on
me
Baby up in my room,
That's exactly what you asked of me

Baby if you want my love, if you want my love
Oh, yeah then why don't you just
Take my hand and help me understand
Going out of my mind
Waiting for the day you'll say you'll be mine
Baby if you want my love, if you want my love
I've had enough, I've had enough
Ohh, it's kinda crazy (I've had enough)
Gotta get you out of my mind (I've had enough)
First you say you want me (I've had enough)
Why don't you just give me a sign
