VERSE 1:

I felt wind by the River
There's nothing only shiver
I'm not here, I'm still alone again
I'm like dust, You're like paper
When you clean me I'll fly away
To where dust lives

CHORUS:

There Is nothing a believer won't find in faith
We Won't get stronger If we never fail
If you look Into his heart you will your place
All the sins and all the shame will be washed away

INTELUDE:

We Are the shining ones
We Are the shining fellows
We Are the shining ones
We can be the River

VERSE 2:

So go waste It all on me
In this perfect somphony of love
We could give, again.
We've got moments to reveal
In our beauty, It's all in fiction
We can not live

CHORUS:

There Is nothing a believer won't find in faith
We Won't get stronger If we never fail
If you look Into his heart you will your place
All the sins and all the shame will be washed away
