A galaxy of nothing space taken by unimportance  
A face without a name, a life unseen forgiveness  
unobtained  
Until true love's obtained this is what exists without you

There's no hate, there's no love, there is only nothing  
Without you I cannot feel, I heard only silence  
I'm numb with emptiness, this is my existence  
I'm numb with emptiness, this is my existence

A face without a name, a life unseen, forgiveness  
unobtained  
There's only nothing without you, without you  
A face without a name, a life unseen, forgiveness  
unobtained  
There's only nothing without you, without you

You're all there is in my eyes, without you I'm blinded  
I'm numb with emptiness, this is my existence  
You're all there is in my eyes, without you I'm blinded  
I'm numb with emptiness, this is my existence

You're all there is in my eyes, without you I'm blinded  
I'm numb with emptiness, this is my existence

A face without a name, a life unseen, forgiveness  
unobtained  
There's only nothing without you, without you  
A face without a name, a life unseen, forgiveness  
unobtained  
There's only nothing without you, without you

You're all there is in my eyes without you I'm blinded  
I'm numb with emptiness, this is my existence  
You're all there is in my eyes without you I'm blinded  
I'm numb with emptiness, this is my existence
