You the sons of darkness
He saved all the world
Mercy for you now
Mercy for you now

Don't regret your life
And have it judged by God
You're forgetting
And don't you ever

Lose no more time
This time it's still as you
No more time
This time it's still as you

There's mercy for you
I look to you and soon I'll follow
To where the son awaits
In the promised land

Move into the light
And die within thee
Mercy for you now
Mercy for you now

The word will be on his life
There will be salvation
The word will be on his life
There will be salvation
