[Verse 1:]

These times seem to have some problems
But I know today you are the solution in my life

It feels very necessary that we take a walk
Thru the trees and waste a little time

Today is so wonderful
Flowers in bloom, your love and my love's blooming too
And life's little miracles will tell the world that wishes
can come true

[Chorus:]

Sunday in the Park with you
Love to spend some time with you
Familiar feelings so brand new
Can we get together

[Verse 2:]

High hopes
The future is waiting baby now I know
There is no more darkness on this path
You say that nature's the inspiration for the way
You live and breathe and grow to start again

Today is so wonderful
Flowers in bloom, your love and my love's blooming too
And let's make a miracle to show the world that wishes
can come true

[Chorus]

Come and take a walk, Sunday in the Park
Baby you and me let's make a family
Come and take a walk, lovin after dark
Baby you and me, baby baby baby baby
