What goes around comes around
What goes around comes around

What goes around comes around
You better realize
You kill life, you kill life, why? Why?
I see your eyes, I see your lies
I see your eyes, inside

What goes around comes around
Now it's your time
How long can you lie? How long can you hide?
How long can you live with your soulbleed?
How long can you live with your

Bring it on
Bring it
Bring

I'll make you bleed and you're bleeding now
I'll make you bleed and you're bleeding now
I'll make you bleed and you're bleeding now
Muthafucka

I got my pride and that's all I need

I'll make you bleed with another blow without the radio
Don't take advantage of this process
You might have to digest a blade made for your ass to
fade

Living on instinct
Never think when I'm rushin' bones crushin'
[Incomprehensible] sealed and delivered from a
savage
And now you sweat because you're goin' down
You envious clown fuckin' bleed

Fuck your ass
Muthafucka, muthafucka, muthafucka
Muthafucka, muthafucka, muthafucka
Muthafucka, muthafucka, muthafucka
Muthafucka, muthafucka
