All your beliefs filled up with lies
Blinded from what you call prophets
Your Jihad's a joke, revenge is our fight
We'll crush the Al Quaeda to stop it

Drop the bombs in...
Drop the bombs in...
Bring the troops in...
Bring the troops in...
World has united to weed out the scum
Wipe out your muthafucking schemes
Wipe out your minority

We're tired of your bullshit, the actions of few
Our people have all took a stand

That threaten the future of man
Dig the roots out...
Wipe out your muthafucking schemes
Drop the bombs in...
Drop the bombs in...
Dig the roots out...
Your holy war is nothing to be proud

A call to arms
All our strength
You can never take from what we feel inside
This call for pride
Is in our hearts
This is our call to arms...
