Verse 1: Debonaire

Bust a move, you gots to get smooth  
Get on the floor to the Poison groove  
It's the Clan with another one  
To make y'all dance just like the other one  
You gots to get loose  
Leanin' on the wall, what's the use?  
To a groove so smooth and outta sight?  
Get on the floor, and dance all night!

Verse 2: JT Money

It's a dance tune by the PC  
That's the Poison Clan, and we  
Came to the party to make y'all move  
So just get down to the Poison groove  
And groove with the Poison Clan  
'Cause if you came to sit, make a change of plans  
And do what's only right  
Just get on the floor and dance all night

Verse 3: Debonaire

All you see is grins  
People movin' away from the bass bins  
'Cause of that bottom  
Most of you even scared to stand by them  
Well here's a taste  
Straight from the studio known for the Ghetto Bass  
Made to invite, no sittin' down,  
So get up and dance all night!

Verse 4: JT Money

Now dance ... 'cause I said so  
Bust a move and go with the flow  
It's the Clan, with a hyped-up dub  
Poison boys takin' over the club  
Whether dancin' or sittin'  
It'll make you move 'cause it's definitely hittin'  
And outta sight; just get on the floor y'all,  
And dance all night!
