Now

Frustration turning, turning around
Stomping the feet, moving the ground
All the barriers unbound
Unexplained, it can't be found

Now

Motivation comes from beyond
Purity like the unborn
Riding the storms
The storms

Enter faith

Deep and deeper in every way

Enter faith

Penetrates the wound again

Enter faith

Deep and deeper everyday

Enter faith

Penetrates the wound again

Enter faith

Enter faith

Enter faith

Enter faith

We cannot be lost as long as we keep faith in God

And in yourself

We cannot be lost as long as we keep faith in God

And in yourself

Now

It's not what you see, it's what you feel

You can not explain but it's so real

This is our fate, no one can kill

From birth this has been sealed

Now

Forever and ever, without an end

Follow your heart, never pretend

The last will be first, it has been said

So I say

Enter faith
Deep and deeper in every way
Enter faith
Penetrates the wound again
Enter faith
Deep and deeper everyday
Enter faith
Penetrates the wound again
Enter faith
Enter faith
Enter faith
Enter faith

Faith, on and on
Faith, to carry on
Faith, no transgression
Faith is a weapon

Faith is a weapon
Is a weapon
Faith is a weapon
Faith is a weapon
Is a weapon
Faith is a weapon
Is a weapon
Is a weapon
Is a weapon
