Fight back
attack
let them all know that we're back
collapse
attract
and feel the knife at your back

Intervention-violation
desecration-intervention

War act
a fact
the government will crash
it's now
it's dead
nobody can bring them back

Intervention-violation
desecration-intervention

Pain-never go away
hate-remains the same
they-they will know my name
slay-the government decay

Reality-the fall of morality
inner cities corrupted by creed
a Roman Empire falls to their knees
intervention the only reality

Pain-never go away
hate-remains the same
they-they will know my name
slay-the government decay

Now war
will fall
the sky will bleed the new storm
act now
for all
enter your downfall

Intervention-violation
desecration-intervention

Bloodstorm...
Onslaught...
Torture...
Martyr...
