I pledge a legions to the flag of the United States of
America
And to the republic for witch it stands one nation

A vision of unselfishness, a union of black and white
One nation of all races, it's clear within my sight
I see it clear, no hate, no fear, no soldiers sent to die
A state that's free and thrives on peace, no greed, no
threat to life

We won't build the weapons of war which looms over
your heads
We'll not feed the war machines that lead our youth to
death

We won't close our eyes to the atrocities which abound
We won't stand and watch until we're six feet
underground

The future is our burden, we can't stand and watch
As the world around crumbles, opposing armies march
We work towards our goal: one nation unity
And you must be the convert who works towards world
peace, peace, peace, peace

Muthafuckers around us who stand and say no way
Opposing lessened armies, they say are here to stay
But no one knows until we try, what we all can do
I won't watch children die, it's up to me and you
Our world is divided, the boundaries have been drawn
Ideas are decided by where you have been born
You can't judge people by the government of their land
They're flesh and blood like us
Why don't you understand?

The future is our burden
We can't stand and watch as the world around
crumbles
Opposing armies' march
We work towards our goal: one nation unity
And you must be the convert who works towards world
peace

One nation, under god, indivisible with liberty and
justice for all
