Shame of all nations  
What seeds do we plant in an infant's mind  
Seeds of destruction  
And don't you trust their kind  
This hate is deep rooted get rid of the weed  
Destroying the harvest  
Of peace that we need  
Prejudice  
Shame of all nations

We got to live in the same neighborhood  
When you take a man's life it don't mean that you're  
good  
Same blood runs through your veins  
Your hate proves you're insane  
See a man's face but you can't see his heart  
Don't even know him but you tear him apart  
Them kind of things they're just killing off the earth  
Madness mayhem we must desert

Prejudice  
Shame of all nations  
Breeding hate don't need no segregation

If dirty people are all I can see  
Then in their eyes the same dirt covers me  
Take off the blindfold it's time to enlighten  
Come out of the wickedness step out of the night  
One man's agony is another man's joy  
For self satisfaction we're prepared to destroy  
One man one earth and one destiny  
To kill satan and give God the glory

Prejudice  
Shame of a nation  
Breeding hate don't cause annihilation

For real
