Ohhh...

Come on and spend the night
With me tonight
(I will)
We'll be making sweet love
(Sweet... love)
By the fire place your invited to

Come on and spend the night
With me tonight
(I will)
We'll be making sweet love
(Sweet... love)
By the fire place

Can we go, it's gettin crowded in here lady
A lot of faces (I don't know) I don't know
And we can test all night
I think it's time we go home and spend the night alone

Come on and spend the night
With me tonight
(I will)
We'll be making sweet love
(Sweet... love)
By the fire place your invited to

Come on and spend the night
With me tonight
(I will)
We'll be making sweet love
(Sweet... love)
By the fire place

Girl, now we're alone
Let me take the time to show ya
How much you really turn me on
Come closer to me mama
I got some things on my mind
Why don't we spend some time

Come on and spend the night
With me tonight
(I will)
We'll be making sweet love
(Sweet... love)
By the fire place your invited to

Come on and spend the night
With me tonight
(I will)
We'll be making sweet love
(Sweet... love)
By the fire place

Lord, Hey...

Come on and spend the night
With me tonight
(I will)
We'll be making sweet love
(Sweet... love)
By the fire place

Come on and spend the night
With me tonight
(I will)
We'll be making sweet love
(Sweet... love)
By the fire place

Would you come home with me tonight?
(I will)
Would you love me?
(Oh Ya)
Would you hug me?
(Oh Ya, cuz baby your all I need)
Come get it
(Oh I will)
If you want it
(Oh I do)

Come on and spend the night
(Oh ya)
Baby
(Baby, baby, baby... oooh)
