Don't you dream with out me  
don't you dream with out me  
when i'm not there  
though we both know it's not your bed i don't share  
don't you dream with out me  
you may not be the love i can call my own  
when i dream these dreams i know i'm not alone  
cos i have you  
i'm addicted to the vibes you bring  
want to be a part of the life you live what else can i do

so here we are feeling no disgrace  
lying in your arms  
seems the only place

repeat chorus
