

## Soul II Soul

### "I Care"

Visit "[I Care](#)" on MotoLyrics.com

I would not want to live in a world  
say that i would not want to live in a world without you  
say that i love a higher love, so high a love it lets my  
spirit see

i would not want to live in a world,  
say that i would not want to live in a world without you  
soul to soul i love you  
say that i would not want to live in a world without you

soul to soul i love you  
soul to soul i care  
i would not want to live in a world if you're not there

say that i love a richer love. so rich a love it cannot be  
continued  
say that i love a stronger love.  
so strong nothing else remains

i would not want to live in a world, say that i would not  
want to live in a world without you  
soul to soul i love you. say that i would not want to live  
in a world without you

soul to soul i love you  
soul to soul i care  
i would not want to live in a world if you're not there
