I got the feeling that you're holding back on me  
Keeping your distance taking it slow  
Watching and waiting to see

Am I for real, you wanna know  
What's the deal?  
Where do we go from here?

Ask me no question and I won't lie  
No guarantees, just a promise to try  
Trust the vibe is all that we can do

Let your love come through  
Love come through to you  
Let your love come through  
Going through to you

No time for mind games  
It's right down to the vibe  
It's all about hate, passion and fire  
I am all for real, I'm letting you know  
Love's the deal so just let go and feel

Don't ask me no question 'cos I don't wanna lie  
No guarantees, all I do is promise to try  
Trust the vibe is all that we can do

Let your love come through  
Love come through to you  
Let your love come through  
Coming through to you  
Let your love come through  
Let your love come in to me

Ask me no question and I won't lie  
No guarantees, all I do is promise to try  
Trust the vibe is all that we can do  
Love come through to you  
Let your love come through  
Going through to you

Love come through to you

Let your love come through  
Love come through to you  
Let your love come through  
Going through to you
