"Love Over Life"

Somebody told me people can't help who they like,
ironically the love that we share is a crime.

And when they saw that I really loved you
they did everything to make sure it would fall through

But for this love my life I know i sacrifice

Hook
I choose loooooooooove over Life
And for loooooooooove I will fight
Fight for Love

I rather die in battle with you by my side
Than be a prisoner trapped in a life full of lies

It's better to have love and lost than to never
loved any at all pay the cost it is better

No sticker price could ever make me change my mind

Hook
Bridge

I really need you, I'll never leave u, I'm waking up
everyday just to
see u, but they don't get that, they wanna attack, and
when they do
best believe I'ma fight back

But for this love my life I know I Sacrifice!
