Heartbeat like a bass drum,
sounding like a shot gun, terrified of what u feel
I need for u to realize, what u see through ur eyes,
cuz what's happening is real.
Terrified because your scared,
or because I touched you there.
I'll always be by your side, even in the after life

Look into the mirror
Tell me what you see
Intriguing reflection
Of a memory
Tears pour, no more, I'm yours, for sure
Eh- Eh
show me the lightx3

I love it when your sleeping,
cuz I know your dreaming. I feel your intensity
Even with my passing we share so much passion can't
deny this chemistry.
Trembling because your scared,
Or because I touched you there,
I'll always be by your side,
Even in the after life

Chorus

(breakdown)
Always wanna see you always gonna need you. Always
gonna haunt you,
gotta know I want you. Baby you should know that, we
were on the right
track, gotta understand that, i will always come back.

To see ya face, I wanna touch it
And embrace, I know u love it.
If u think your lonely now
My darling u know I will be right there
If u think you don't know how
Baby I'll show you the way

Chorus
