"SNAFU"

Snafu
When everything is all fucked up
Kids are doing drugs
And there are buildings blowing up
Sit back
Cause there is nothing you can do

This entire planet
Is completely fucking screwed
Situation normal- all fucked up
It's a snafu

You're all fucked too
Your homes and towns will fry
When fire rains from the sky
Hahahahaha... you're all gonna die
Fubar

When shit has been going way too far
As the fucking French would say
Nice knowing you, Au Revoir
So fucking PRAY
Cause any coming day

A finger will slip we'll launch the nukes
And celebrate the world's decay
