Workin? on really servin? Him in praise  
(Worship)

Workin? on really servin? Him in praise  
(Worship)

Workin? on really servin? Him in praise  
(Worship, worship, worship)

Workin? on really servin? Him in praise

Gaze into His eyes, fantasize the last days  
The last phase of God?s untouchable plan  
Until then, worship His name  
Through this black pen, writin? raps

Or anyway that I can, still praisin? God  
'Cause that?s the way that I am, you might call me odd  
But that?s aight, we are Souljahz of the Lord  
And we are ready to fight, neva will we eva stop

We love Jesus from the bottom of our hearts to the top  
Pumpin? God?s blood through our veins  
Handcuffed to Jesus Christ and feet shackled in chains

And we don?t wanna be free, we just wanna see  
The Savior and Creator of the heavens and seas  
G?s not necessary because we  
Only need two knees to bow down and worship G O D

Workin? on really servin? Him in praise

When I come through I?m breakin? buildings  
And I?m makin? walls fall  
Sit back and relax 'cause we got more in store for y?all  
So listen up and listen good

We gotta praise God through our whole neighborhood  
I should slow it down, so you can understand

What this flow is all about

And we can break down these sounds and take time to  
meditate

On the word of God so your wisdom can escalate  
When you gonna put your foot down, take a note now  
Acceptin? God is your only hope now

Reach down, deep down in your heart  
You talk the talk but do you walk the walk?  
You say you love God but do you really love God?  
Will you still love God when situations get hard?  
Or will you walk away, or will you get down and pray  
And worship the Lord almighty like we?

The Lord almighty

Ain?t it odd people take God so lightly, check it  
Satan is waitin? to fight me and you might say  
That I?m dumb for walkin? away, I chose the right way

Despite the obstacles that stand  
In my way don?t play praise God with two hands  
Lift 'em up to the sky, head to the ground  
Every knee will bow down, to Jesus don?t play around

And if you say you found God then prove it  
Profess it with yo tongue you gotta mouth, son use it  
Jesus is the name above all names  
Forget a famous superstar, God possess all fame

He posses all thing around me, around me  
Word, His Holy words neva seize to astound me  
And everywhere I look and everywhere I go
