Growing up I figured out I'll never be like you  
Early on I tried it out, but couldn't see it through  
Along the way I found my way, and still it's not enough  
You'll never see what I see, and now I've given up

(Chorus)

Please don't leave me now  
I'm chasing footprints to keep up with you somehow  
All I need is for you to believe

I chose to walk a different path  
I could never fill your shoes  
I tried to find the middle line  
It's not good enough for you  
All I wanted was some happiness, and feel free to live  
my life  
I let you down, you let me down, and it tears me up  
inside

(Chorus)

I wanna make you proud  
I've gotta make you proud  
I've gotta stay true to myself  
I've gotta stay true

(Chorus)

I wanna sing loud  
Make you proud
