# "Getting By"

Oh my soul is so tired  
Feeling like it's working me overtime  
No matter how hard I try life just gets the best of me  
every time

(Chorus)

Day in, day out, I struggle  
Can I keep up this fight?  
I was meant to be the one who's standing in the light of  
my dreams by now  
Always fought through  
Torn but still true  
I need something more than just getting by

Am I doing this right?  
Fighting for a chance at a better life  
Every time I think I'm alright karma keeps kicking me to  
the ground

(Chorus)

Strugglin' my whole life, I want something  
Strugglin' my whole life, I want something more

(Chorus)
