There's a place that we ought to go to be alone
If it's cool with you I'll take you there
Seems a little pretentious if I assume
You might just follow me yeah
So I'll walk ten steps behind

If your looking for love
You aint gonna find it here
It's all about fear
Get your pretty self over here now
And if you want me to know
You best be explaining yourself
Cause I got a few questions of my own

Why don't you tell me what you think about them ladies
ladies ladies
Tell you what I think about them fellas fellas fellas
Show to you the meaning
I'll show you I'm the one
To make it right

There a life that we try to hide in
Move away
When the clock strikes twelve
Are you cinderella pull a princess now

While the mess of lines are phoney advertising yeah
When it's gonna hurt you
They're gonna hurt me
When he's got another glass slipper

And if your looking for love
You aint gonna find it here
It's all about fear
Get your pretty self over here now
And if you want me to know
You best be explaining yourself
Cause I got a few questions of my own

Why don't you tell me what you think about them ladies
ladies ladies
Tell you what I think about them fellas fellas fellas

Show to you the meaning
I'll show you I'm the one
To make it right

I'm the girl with the pretty blue eyes
Who want to love tonight
I'm the guy who knows how to give the loving that is
right
(She said:) I'm the girl with that pretty little smile who
wants to show you how
I'm the guy who didn't really care one back or even now
oh (?)

If your looking for love
You aint gonna find it here
Cause I'm about fear
Get your pretty self over here now
And if you want me to know
You best be explaining yourself
Cause I got a few questions of my own

Why don't you tell me what you think about them ladies
ladies ladies
Tell you what I think about them fellas fellas fellas
Show to you the meaning
I'll show you that I'm the one yeah
To make it right

Why don't you tell me what you think about them ladies
And I'll tell you what I think about them fellas fellas
fellas
Show to you the meaning
I'll show you I'm the one
To make it right, right, right, right woo!
