[Dan Swanö:]

Something is not right here  
Is racking my mind  
It's all around me, I feel it inside  
Like I'm locked in some prison  
And my world is a lie  
Chills my emotion, blinding in my eyes

[Damian Wilson:]

Let go of your anger, empty your mind  
Return to your senses, accept what you find  
You are here for a reason  
Cut through these lies  
Lives are in danger, open up your eyes!

[Russell Allen:]

Reach for the answer - digital rain  
Take your chances and taste the pain

[Russell Allen & Floor Jansen]:

Open up your mind  
Don't trust your senses  
You have been blind - digital rain

[Russell Allen:]

Awaken the sleeper - digital rain  
Dig down deeper and break the chain

[Russell Allen & Floor Jansen]:

Let the truth flood in  
Tear down your fences  
The search begins - digital rain

[Dan Swanö:]

I've entered the real world, I know what to do  
The search is over, the prediction is true

[Damian Wilson:]

Many millions of people exploited like slaves  
But you can release them  
From their digital graves

[Damian Wilson:]  
Let go of your anger  
Empty your mind  
Return to your senses  
Accept what you find  
You are here for a reason

[Russell Allen:]  
Open up your mind

[Damian Wilson:]  
Cut through these lies

[Russell Allen:]  
Don't trust your senses

[Damian Wilson:]  
Lives are in danger

[Russell Allen:]

[Russell Allen:]

[Russell Allen:]  
DIGITAL RAIN!
