

Damned Things, The "Little Darling"

Visit "[Little Darling](#)" on MotoLyrics.com

C'mon little darling, put on your favorite shoes
C'mon c'mon little darling I'm gonna give you the blues
I'll make sure to keep a light on to draw you in
Like a flame you're burnin' up darling to go out again

Quiet down baby you're not listening to what I say
We're all the way
Dry your eyes honey let the broken record play
We're all the way
Quiet down baby you're not listening to what I say
We're all the way
Little darling gonna save my soul

C'mon get loud little darling, you've got a lot to prove
C'mon get high little darling, hearts gonna beat 'til they
bruise
I don't mean to keep you waiting and wondering
Like a wave I'm rolling in darling to go out again

Quiet down baby you're not listening to what I say
We're all the way
Dry your eyes honey let the broken record play
We're all the way
Quiet down baby you're not listening to what I say
We're all the way
Little darling gonna save my soul

I come and go but never disappear
A million miles until we're in the clear
I come and go but never disappear
I keep running back to you little darling

Quiet down baby you're not listening to what I say
We're all the way
Dry your eyes honey let the broken record play
We're all the way
Quiet down baby you're not listening to what I say
We're all the way
Little darling gonna save my soul
