On your mark
Get ready
Set and run away for good
There's a bold unbridled lie where my soul once stood

Fall apart confetti
Come on
Cry right on my sleeve
I am just a ghost of hearts that break bittersweet

Am I in tune
Yeah
I can't hear much but the melody coming from you
Baby please don't rush
Keep the tempo slow and blue
Let me hear the words you say
Let's go and get tangled in chains of golden days

Counting down
T-minus 10
9
Wait
I still believe there's a distance in your eyes only mine
can see

Leave the ground behind us
I'll be floating 'round your lips
I am just a host of arms holding one full wish

Am I in tune
Yeah
I can't hear much but the melody coming from you
Baby please don't rush
Keep the tempo slow and blue
Let me hear the words you say
Let's go and get tangled in chains of golden days

Am I in tune
Yeah
I can't hear much but the melody coming from you
Baby please don't rush

Keep the tempo slow and blue
Let me hear the words you say
Let's go and get tangled in chains of golden days

Am I in tune
Yeah
I can't hear much but the melody coming from you
Baby please don't rush
Keep the tempo slow and blue
Let me hear the words you say
Let's go and get tangled in chains of golden days
Let's go and get tangled in chains of golden days
Let's go and get tangled in chains of golden days
