"Have To Ask"

Visit "[Have To Ask](#)" on MotoLyrics.com

I know you believe me but who are you
Who could make you whisper if it's the truth
If it's trouble leaving
Let it go
All this trouble you cause
No one has to know

I keep spitting it out
I can't keep it down
Can't keep holding it out
It's going to hit the ground
Can you stop that sound
You only have to ask

I know you've been waiting
I have to
You keep looking this and that way for a clue
If it's all so easy take your time
Now I'm all fucked up so make up your mind

I keep spitting it out
I can't keep it down
Can't keep holding it out
It's going to hit the ground
Can you stop that sound
You only have to ask
You only have to ask
