Your beat is the same beat they played for me
Half time with a sweet skin harmony
Locked down on a fool's note
Laid up on your bruised hope
Your love is the same love that set me free

You're on the heartbreak list
You're on the payroll
You come with a hit and miss and gone when the lights
go
You're on the heartbreak list
You're on the payroll
You're on the payroll

Come dance 'cause my hand waits for the lead
Sin silk and a deep breath of what you breathe
Lost track of your cruel code
Lapped lust on the wrong road
Take stars 'cause your dim light is all I need

You're on the heartbreak list
You're on the payroll
You come with a hit and miss and gone when the lights
go
You're on the heartbreak list
You're on the payroll
You're on the payroll
