Three

Four

You trade in time for the victory smile
I'm spinning high like the tin moon on fire
Yeah
It's been a long ride but I'm still looking for mine
Yeah
It's been a long time

I spelled my name on your up and down beat
I called for rain but they gave us 8th Street
Yeah
You're on the TV
And paid for faking the bleed
Yeah
It's been a long time

Say your time keeps a little fast
Say your heart beats blue and black
Say your love grows with poison grass
Say you won't leave

I'm making frames for the visions you see
I took your place where the cannonball sleeps
Yeah
It couldn't be free but I would've given you cheap
Yeah
It's been a long time

Say your time keeps a little fast
Say your heart beats blue and black
Say your love grows with poison grass
Say you won't leave

Say your time keeps a little fast
Say your heart beats blue and black
Say your love grows with poison grass
Say you won't leave
