I feel you in me, our bodies are getting closer,
And on the first time will touch I'm gonna know you
We'll have that type of chemistry that's taking me over

(Whoo)

I don't know who you are, but I will find ya
It's burning up in my soul, yeah I'm a fire!
I'll put a message in a bottle and hope it will find you

Cause you're my one in a million
I know you're out there somewhere
I want my one in a million, the one I can lean on,
Someone who will be there

I'm gonna track you down by satellite,
I'm gonna hunt you down all day and night,
One in a million (million) my one in a million

I hear you talking to me, so just come closer
And on the first time we meet, I'm gonna show ya
I'll give you three two one seconds, and I'm taking over

(Whooo)

I don't know who you are, but I will find ya,
It's burning up in my soul, yeah I'm a fire
I'll put a message in a bottle and hope it will find ya

Cause you're my one in a million
I know you're out there somewhere
I want my one in a million, the one I can lean on,
Someone who will be there

I'm gonna track you down by satellite,
I'm gonna hunt you down all day and night,
One in a million (million) my one in a million

I'm gonna find you; I don't care how much it takes
And I don't give a damn if something in me breaks
Be my one in a million, and we will have a life
somewhere!

Cause you're my one in a million
I know you're out there somewhere
I want my one in a million, the one I can lean on,
Someone who will be there

I'm gonna track you down by satellite,
I'm gonna hunt you down all day and night,
One in a million (million) my one in a million
