[a-plus]

We meditate, we meditate to educate  
Educate we meditate to elevate

[a-plus]

Now it's the rhyme ripper fittin' to split ya  
Spine to your liver  
Flash like a line sniffer I'm swifter  
Than michael jordan snortin' some speed  
And I'll give ya  
Much more than you need yo fly nigga  
Scorin' the weed sticky green'll make me high quicker  
Twistin' it and mixin' it with bacardi lime liquor  
Beligerent kickin' it with (tati on? ) the time ticker  
You could be a dyin' man with a mic but I'm sicker  
You rhyme wack as I bust like leon isaac  
Makin' peons slide back  
That don't be on the right track, we way off  
So now they stay soft like impotence  
But I say naw, I'd rather stay raw  
Magnificent rippin' it  
Givin' it all I can though  
Plus I handle devious scandals  
Mischievous commando!!  
Luchini like camp lo  
Wreckin' the beats  
Gettin embassy's executive cheese

[phesto dee]

I'm the loose cannon aid on deck  
Detonate in a millisec  
Covered in a blackened silloutte  
And still reflects enough light  
To shatter your body like a pinyata  
Bobofet or  
Jim cata doin' lyrical kapoeta  
The net to netta  
Smokin' purple fibers off the hedges  
Till it's resin  
And pledge allegiance  
To the essence  
Confront phes rock

Ever present with hesitance  
My tongue twistin' tornadoes  
Never miss your residence  
You cackling cacophonies  
Me and the mike is holy matrimony  
Tackling your phony flow matrix  
You couldn't absorb or deflect the impact  
With roll cages  
The soul aces  
Take you to that oasis

[chorus]

[a-plus]

We meditate to educate  
Make my mind luminous  
Avoid the tricky and the ruth-eless  
Movin' swift  
The juggernaut force  
We maneuver this rap game  
What the bumboclat  
Woman act strange  
And get tipsy off the fat chain,  
Nigga splurgin' at the bar and thinkin' that's game  
Till they get you for your chevy  
Beamer/ac/range  
If you lack  
Lack brains  
The facts  
The facts change

[tajai]

Latch onto my concept  
In the context of conquest  
I capture, your conscience  
Move upon you with logic  
But it's so deep up in ya  
Ain't no way you fittin' to dislodge that  
I mean way up in ya  
Bend your mind like a fender  
How the (bought? ) of my new agenda  
My deluge of lewd yet shrewd mental food will wet you  
And your crew  
So eschew from testin' my standard issue  
Let alone the cannons and missles for heavy damage  
aimed at those  
Grandstanding with petty anti-antics  
Can't match those, handcrafted by my many  
mechanics  
Who's skills run the gamut who will run the planet  
Any time I exert my will it's outstandin'

To the point where you gotta hand it or hate and be  
mad  
It don't matter to me  
Over a bed of fresh beats it's style au natural with no  
additives

[opio]

Even if you brandishing guns and break laws  
I make you let the pistol go and praise god  
A dynamo  
Shinin' on the mike like a quasar  
They can't infiltrate the steel cage brain star  
I'm feelin' blood hounds all on my trail  
Like my lyrics was peruvian candy  
Not a fugitive  
Truly expanding minds with rhymes with the family  
Who be gettin' higher than the andes  
The way I plant seeds deep in the underground  
Make the thunderous pound to get your heart pumpin'  
Spark up the kryptonite  
People gettin' lit tonite  
Indica-like, to try to simplify try

Chorus:x2

[opio: talking]

We meditate, to educate, educate  
We meditate, to educate, to educate  
We meditate, meditate to educate  
We meditate, to educate, elevate  
We meditate, to educate, elevate  
We meditate, to educate  
We meditate, to educate  
Make my mind luminous  
Yeah!
