Have you ever had a feeling that someone would come
out leadin' you?

If you had it's not so bad unless you found that it is all
untrue

Take a good girl to keep her man, some can't do it,
others can

I'm no chump but I would jump if I could find someone
that's not unlike me too

Oh when the river runs, flowers are bloomin' in May
And if you get good business, how do you do it that
way?

Streetwalkin' women, they are happy and gay
But I'm never happy, how do you get that way?

I want a man to be near, because he bring good care
But the men don't like me, they don't seem to care

Now they can come and go, to and fro every day
But I can't make 'em like me, how do you do it that
way?

Now if you want somethin' good, you mustn't knock on
wood
Just get a good man to look up under your hood

And when the rooster and the hen go to the barn to
play
Oh the hen has chickens, how do they do it that way?
