(Dallas Frazier)

Well, you're gonna be sorry hum you're gonna be sad
Someday you'e gonna find out baby I was all that you
had
When you get lonesome hum said you'll come around
And beg for my lovin' child said write that down.

I know you're gonna come knockin' on my front door
When they put the padlock on the corner grocery store
So I'm gonna tell you yeah where I can be found
Get you a pencil baby and write that down.

Write that down, write that down
You'll come crawlin' back baby and you're gonna cover
some ground
Hum write that down I said you talked about me
Umm done me like dirt and it never bothered you how
much I hurt
But one of these days girl umm you'll make a different
sound
You'll cry long and loud for me write that down.

Write that down, write that down
You'll come crawlin' back baby and you're gonna cover
some ground
Hum write that down I said you talked about me
Umm done me like dirt and it never bothered you how
much I hurt
But one of these days girl umm you'll make a different
sound
You'll cry long and loud for me write that down...
