I'm aimin' with my loaded gun  
I'm searchin' for the perfect one  
I'm findin' me a love that's right  
Before the night is over

I'm chasin' down a pure heart  
I'm callin' out to where you are  
I'm sendin' out a single flare  
I feel you gettin' closer... closer

[Chorus]

I would move the world for you  
If you ever asked me to  
Circle 'round the sun and moon  
I would move the world for you... for you

Boys they tell their silly lies  
And girls they get so teary eyed  
I swear I thought of giving up  
The dream of love forever

Sayonara to the cheats and fakes  
'Cause tonight I'm gonna raise the stakes  
I'm wishin' on a falling star  
To draw our hearts together... together

[Chorus]

I would move the world for you  
If you ever asked me to  
Circle 'round the sun and moon  
I would move the world for you

I would move the world for you  
If you ever asked me to  
Circle 'round the sun and moon  
I would move the world for you... for you  
Ohhh, yeah

[Bridge]

It's like I got a second wind that's kickin' in  
I'm braver than I've ever been  
If what I feel is finally real  
Then I know

[Chorus]

I would move the world for you  
If you ever asked me to  
Circle 'round the sun and moon  
I would move the world for you

I would move the world for you  
There's nothing that I wouldn't do  
Race across the midnight blue  
I would move the world for you

I would move the world for you  
If you ever asked me to  
Circle 'round the sun and moon  
I would move the world for you

I would move the world for you  
There's nothing that I wouldn't do  
Race across the midnight blue  
I would move the world for you... for you
