They said
You gotta read between the lines
Where are you going...
It's too dark outside
Little girl
They said
You can't live a lie
'Cause in the end we'll all meet up again
And it'll be the same
As it used to be
[Chorus:]
Who are you fooling
We'll never see each other again
Who are you fooling
We'll never be the together again
Who are you fooling
We'll never be the same again
And now that I realize
It was time that passed us by
We said
Maybe it's just a phase
And the wind will carry it away in the morning
But the wind never came
[Chorus]
Falling high
Slipping away
All the way
Falling high
Slipping away
All the way
[Chorus]
They said good-bye
I said I cried
Time, time, time...
