Hesitate, I'm right behind you  
I'll be inside you if you just break away  
Give me space to work my madness  
You can't deny it when it's in you're face

And I know and you don't, 'cause I know  
If we could find a way  
To break from these constraints

If I told you we need to improvise  
Need some action, wanna feel alive  
Give me a reason to unwind and if I told you  
I wanna be surprised, would she even come to mind?

A great escape from all exposure  
I'm feeling older but I still think the same  
I've found my place, I'm in control now  
I'm making progress that you can't erase

And I know and you don't, 'cause I know  
If we can find a way  
To break from these constraints

If I told you we need to improvise  
Need some action, wanna feel alive  
Give me a reason to unwind and if I told you  
I wanna be surprised, would she even come to mind?

More now then ever, I'm feeling like I'm alive  
More now then ever, I'm feeling like I'm alive  
More now then ever, I'm feeling like I'm alive

If I told you we need to improvise  
Need some action, wanna feel alive  
Give me a reason to unwind and if I told you  
I wanna be surprised, would she even come to mind?
