My optimism is contagious  
Or so I'd like to believe  
It's been a lifetime now  
Since I've shared some welcomed company  
I know you're not much into Romance  
A good sulk could make me cry  
We made it this far now  
I'm sure that we can compromise

Come and take it all  
Leave it all behind  
Til we live and learn  
Crash and burn  
Just give me one last try

Waiting for winter to come  
And it'll take us under  
You can't see past tomorrow  
It's what I like about you  
I'd sing out for you right now  
It's all about the urge to write this down  
Don't bother, we're convincing  
Silly girl taught me

This to many he would call hopeless  
Unenjoying every mile  
Well I plan to make this last  
I plan to do it with a smile  
Ambition moods to keep you moving  
All my notions pull me west  
No not an obstacle  
Another ride up to a test

Can we take it all  
Leave it all behind  
Let's give it once last try

Waiting for winter to come  
And it'll take us under  
You can't see past tomorrow  
It's what I like about you

I'd sing out for you right now  
It's all about the urge to write this down  
Don't bother, we're convincing  
Silly girl taught me

Sit down and sing with me  
A simple melody  
Singing "Lalalalala"  
The right words  
And set them free  
Singing "Lalalalala"

Waiting for winter to come  
And it'll take us under  
You can't see past tomorrow  
It's what I like about you  
I'd sing out for you right now  
It's all about the urge to write this down  
Don't bother, we're convincing  
Silly girl taught me

Singing "Lalalala"
