I know i'm not here alone
I can hear them sigh and moan
Though it's dark here
There's a presence I can feel
As the world spins round once more
Closing one more opened door
I find comfort in the words she used to say
So now i'm on my way

[chorus:]

I have made my point for you to see
Still all the borders seem so closed to me
I i will try once more cause
I'm on the right way you see
Wait i'll be waiting for eternity i will

Maybe we can work this out
There's no need to scream and shout
I am standing here so hungry and so cold
One by one we fell apart
Though united in our hearts
Now i know that i have taken it too far

Breaking through the stars again

I have made my point for you to see
Still all the borders seem so closed to me
I i will try once more cause
I'm on the right way you see
Wait i'll be waiting for eternity i will

[solo]

I have made my point for you to see
Still all the borders seem so closed to me
I i will try once more cause

I'm on the right way you see
Wait i'll be waiting for eternity
I i have made my point for you to see
Still all the borders seem so closed to me
I i will try once more cause
I'm on the right way you see
Wait i'll be waiting for eternity i will
