You were a shameless child  
Banded by stiff cross currents

Anything but "my", "yes", and "no"  
Just simply weren't invented yet  
Oh yes, oh no

Then one day you'd had it  
Exiled your close advisors

Ousted your dog, your rabbits  
You're through with pasifizers  
You're through with pasifizers now  
You're through with pasifizers

Here we go mistaking clouds for mountains, oh  
Here's the thing that brings the sparrows to the  
fountains, oh  
Here's the thing that makes you wrong for the  
highlands, oh  
Here we go mistaking clouds for mountains  
Autonomy

Then one day you'd had it  
Exiled your close advisors  
Ousted your dog, your rabbits

You're through with pasifizers  
You're through with pasifizers now  
You're through with pasifizers now  
You're through with pasifizers

Here we go mistaking clouds for mountains, oh  
Heres the thing that brings the sparrows to the  
fountains, oh  
Here's the thing that makes you wrong for the  
highlands  
Here we go mistaking clouds for mountains  
Autonomy
