Would it be easier so much easier  
If you never knew us  
Would you ever fear anymore  
If you never knew us  
Would we meet on a fatal shore  
On a fatal shore?

When are you comin to shore  
To never fear anymore  
You never know any doubt  
Like we who breathe in and out

Are you a breather  
Mail receiver?  
If you could see right through us  
Through our clothes and through our pores  
If you could see right through us  
You're gonna run into your homes and lock your doors
