"Head Down"

Visit "[Head Down](#)" on MotoLyrics.com

I see that smile
I see that smile
I see that smile on your face
We fly everywhere
I see that smile on you face.

I see you laugh
I see you dance
I take that away every day
We see you cry
Turn your hair
Then we slap your face
Bow down, bow down, bow down to live your life
Bent down, bent down, bent down like that and smile
Head high, head high, head high you got to smile
Head high, head high, head high you got to smile

I see you try
I see you fail
Some things 'll never change
We hear you cry
We hear you wail
We steal that smile from your face
Bow down, bow down, bow down to live your life
Head down, head down, head down, hide that smile
Head high, head high, head high you got to smile
Head high, head high, head high like a song you like
