Emotions

Up in my head
So say what you want
Spit it out loud
In my face
I've got to make up my mind
Goes with the time
It's not gonna change
So say what you want
Spit it out loud
In my face
No attention (x4)

Gonna tell you where to walk
When to smile
And just what to say
Have your own fun
Make your own mind
But don't make no waves
You got a head full of change
Show the new way
It's gonna come
Say what you want
Suck out my life
Suck out my brain
No attention (x12)

No attention (x7)

And I'll pay no attention
