Trouble is trouble us
Trouble is that's not clear
Connection needs an open line
Connection knows no fear...

The red lines obscure my view
The red lines jump back, back behind you
Love lost lovely place
Love blinded by thoughts and blue...

Always seems like I'll never been left alone
Long enough to be show off where I go
Always seems like I'll never be left alone
Long enough to explore the great unknown...

Always seems like I'll never be left alone
Long enough to be shown where I go
Always seems like I'll never be left alone
Long enough to explore the great unknown....
