You take me away
Come on and dance and celebrate
You take me away
I keep on and on
Gotta elevate
You take me away
Get on the floor
And feel Ok
You take me away
Move on and on until the day

Just keep on believin' in love
Uh uh
And turn on the feelin'
Dream it up
You take me away
Celebrate
You take me away
Celebrate
And everything will be alright

You take away X3
Take me away
You take me away X2
Release my mind body and soul

You take me away
Every night and every day
You take me away
Get on the floor and celebrate
You take me away
You and I will lock the day
You take me away
Release my mind and elevate
You take me away X2
Take me away
You take me away X4
Take me away
You take me away
