You can hear screams  
But you can't make the words,  
The silence hits you harder than a train  
You feel a shiver run up and down your stairs  
Now cross your heart and hope to tranquilize  
(Here it comes, here it comes)

Chorus

So cold now, you're frozen  
No blue light can, can ever come ever come  
Your silent, no flashing light  
The morning breaks it's promises

Lift your head, off the guillotine  
So young and full of rich reaaal dreams  
Ooooooh you can't see the sky  
For all the words I couldn't find  
Come over here  
To whisper like the razor blades  
And you, never fall, never fall

Chorus

So cold now, you're frozen now  
No blue light can, can ever come ever come  
Your silent, there's no flashing lights  
The morning breaks

Don't have a clue about the rules on here,  
Never gonna know now, I know how he feels  
While the shivers gone steel every night he gets in  
And here he waited here at the hospital bed

Don't have a clue about the rules on here,  
Never gonna know now, I know how he feels  
While the shivers gone steel, every night he gets in  
And here he waited here at the hospital bed

Chorus

So cold now, you're so frozen now  
No blue light can, can ever come ever come  
Your silent, there's no flashing light

The morning breaks

Won't break

And while the shivers gone steel, every night he gets in
